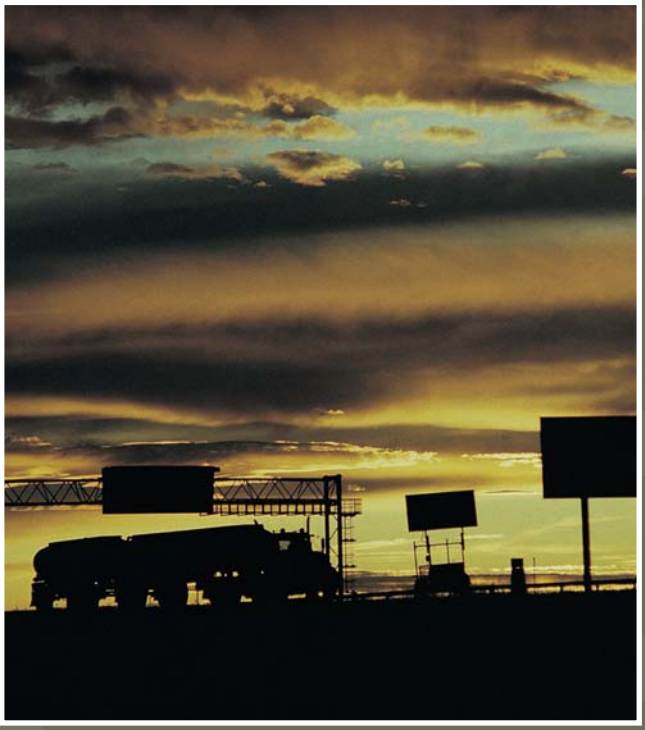
Carriage of Dangerous Goods & Services

Type approval and inspection on tanks



Business Challenge

Dangerous goods travel continually throughout the world. Chemicals, fuels and a variety of substances are transported in pressurised tanks. The design and integrity of tanks is of primary importance to guard against explosion risks.

Solution

Bureau veritas provide:-

- Control of earthworks
- A design approval service for portable tanks, fixed tanks, demountable tanks containers and wagons
- Initial and periodic inspections of tanks and cylinders
- Quality system approval and surveillance for manufacturers
- Consultancy and training
- Condition surveys on existing tank instalations
- Welder procedure qualifications and welder approvals
- Approval and inspection of repairs and modifications

What are the key benefits?

- Demonstration of Compliance with TPED 1999/36 EC
- A global network to provide verification and repair
- The assurance that a repair, when required, maintains the compliance of the equipment

Why choose Bureau Veritas?

Recognition
Founded in 1828, Bureau Veritas is a worldwide leader specialised in QHSE and social responsibility services. Certified to ISO 9001 for all of its activities throughout the world, the company actively participates with professional authorities for the development of international standards and regulations. Bureau Veritas is a notified body for the Transportable Pressure Equipment Directive 1999/36 EC.

Network
With a network of 700 offices, and over 26,000 employees in more than 140 countries, Bureau Veritas is uniquely placed to supply its 280,000 customers worldwide. In the UK and Ireland alone Bureau Veritas has over 30 offices and laboratories employing over 1500 staff.

Expertise
Bureau Veritas retains the highest calibre personnel to provide the level of quality, experience and knowledge essential to the delivery of specialised services and to ensure client satisfaction.

Personalised Services
Bureau Veritas has a proven track record in adapting its services and designing bespoke solutions. Experienced Engineering Specialists will carry out a thorough appraisal of your needs which is then balanced against operational and budgetary constraints. From this a step by step "road map" to compliance is devised to ensure all regulatory requirements are considered.

FAQ-Frequently asked questions

Can Bureau Veritas help me with tanks designed in the UK but manufactured abroad?
Yes, our design verification would be completed in the UK and we have surveyors with authorisation to work under TPED in China, America, South Africa and main manufacturing regions throughout the world.

Can Bureau Veritas help with the repair procedure on my existing tanks?
Yes, we can provide design approvals of repairs and inspection.
